

Office

Client:

Ford Motor Land Services Corp.

Architect:

Giffels Associates
NORR Limited

Location:

Oakville, Ontario

Project Details:

The scope of work involved the construction management of a new, high-tech head office facility, approximately 210,000 square feet with surface parking for 1,000 cars. The design is of a Class "A" suburban office facility and includes a cafeteria, fitness centre, showroom and television studio.

This project was awarded the Toronto Construction Association's "2002 Best of the Best Project Achievement Award - Large Project Category" which is the construction industry's most prestigious awards program. The award recognizes the excellence of the companies and individual's that provided exceptional leadership and innovation on projects throughout the Greater Toronto Area.
